

Live Video Streaming With BOXCAST

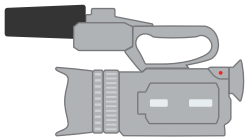

A complete, easy-to-use live streaming solution for organizations.

CAPTURE

SOURCES

BoxCast can acquire video from numerous sources, including cameras, switchers, and iOS devices.

Video Input

+

BoxCaster

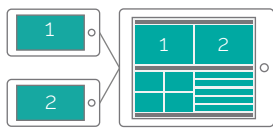

Connect to any video camera, video mixer, or other device with a video output.

A plug-and-play device that encodes and transmits live video efficiently to BoxCast.

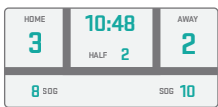

Broadcaster

Live stream audio and video from your iPhone or iPad.

BoxCast Switcher

Capture and mix video from multiple iPhones or iPads.

Score Bug

Wirelessly connect to your scoreboard and display it with an on-screen overlay.

RTMP

Send video to BoxCast from any RTMP encoder, such as Wirecast or Teradek.

DELIVER

BOXCAST CLOUD

In the cloud, BoxCast optimizes every video so that viewers anywhere can watch the stream live.

BoxCast Platform

Video is transmitted to the cloud, where it's optimized, transcoded, and then delivered to viewers all over the world.

WATCH

VIEWER EXPERIENCE

BoxCast gives your viewers a professional experience on any device.

Your Website

Viewers can watch their live and recorded streams directly on your website.

BOXCAST.TV

BoxCast Network

BoxCast will host your video on BoxCast.tv - our viewing network.

Social Media

Stream simultaneously to your organization's Facebook page or YouTube channel.

Smart TV

Get your own page on BoxCast's Roku and Apple TV App so viewers can watch on their TVs.
